COMPANY OVERVIEW

- Established in 1997, CompQsoft is a premier information technology services company with SDB, MBE, and HUB Zone certifications. Based in Houston, Texas, CompQsoft specializes in Q - Managed Professional IT Support; testing and Quality Assurance Services, SAP Solutions including Business One; and IBM Software Services.
- CompQsoft is today a fast growing \$ 3 million company with a strategy and methodology that is strongly focused on the success of our clients, that include leading Fortune 500 companies such as **HP, Avid Technologies, WEBCO, and State of Alabama and the United States Army, to name a few.**

CONTRACT VEHICLES

- **NETCENTS** – As a teaming partner with Northrop Grumman we provide solutions and services based on this Indefinite Delivery Indefinite Quantity (**IDIQ**). The scope of this planned acquisition is to establish an IDIQ contract for Network-Centric Information Technology COTS products, security (firewalls, VPN, encryption and decryption, etc.) and system solutions (to include but not be limited to engineering, software development, integration, installation, testing, warranty, training, operations and maintenance), and the hardware, software and materials to design, install, support and maintain Network-Centric Information Technology, Networking, Telephony and Security (NCITNTS) systems.
- **Period of Performance:** 10 Sept 2004-9 Sept 2009 ****NETCENTS extended for ALL FFP and CR CLINs through 09/09/2010 ** **** with four 3-month options through 09/09/2011 ******
- **Eligibility:** All DoD agencies, including Army and Navy, and all Federal agencies/departments
- **Northrop Contract Number:** FA8771-04-D-0004

OUR Q METHODOLOGY

- **Needs Identification and Gap Analysis:** We begin at the beginning – with a comprehensive and deep understanding of clients’ IT needs, business goals, gaps, issues and shortfalls which may be preventing the organization from achieving its goals.
- **Project Need Based Customized Solutions:** This deep insight into client’s project needs is the foundation of our capability to manage client IT or project needs in a customized manner.
- **Commitment to Excellence:** Excellence is a deeply ingrained value at CompQsoft. We believe that achieving one-time excellence for one client is not enough; our commitment to excellence is consistent.
- **End to End Responsibility:** We take end to end responsibility for our projects thereby enabling you to focus on your core competencies and business while we take care of your IT related needs.
- **Commitment to Quality:** Our IT professionals go through a rigorous testing and interviewing process to ensure that your company receives the most professional and qualified individuals for your project.

OUR DIFFERENTIATORS AND VALUE PROPOSITION

At CompQsoft, **Q** stands for **QUALITY**. Quality that you can count on and we stand behind.

You can get the competitive edge with **Q**-Solutions from CompQsoft.

- **Solid Track Record:** Over ten years of industry experience with businesses from a variety of industries. Our clients consist of small businesses to enterprise corporations, and governmental agencies, meeting a variety of business needs. We strive to understand the needs of our clients and to provide them with the Q - Solution that best fits their business, timeline and budget.
- **Projects Based Resourcing:** Access to worldwide professional technical workforce to meet all your project needs – Information Technology professionals, and Telecom professionals. Our resourcing process includes interviews, reference checks, background checks, drug screenings, soft-skills assessment and technical proficiency testing. Our highly skilled professionals receive training updates on the latest technologies and industry practices on a regular basis to ensure we understand the most current technologies
- **Partnership with SAP America and IBM Software Services:** Leverages combined resources and expertise to provide the optimum mix of people and technology resources.
- **End-to- End Responsibility:** The assurance of end to end responsibility for our projects. We are committed to what we promise and spare no effort to ensure that this is an enduring reality for all our clients.

- **Customized Solutions:** We work with you to create a solution that meets your needs and promotes the success of your business. We are determined to help your business generate revenue, increase your productivity and create a more efficient workplace.

PRODUCT AND SERVICE OFFERINGS

Managed IT Support Services

- Software Application Development: meets your software application needs regardless of technologies with our Q methodology of understanding the clients' business process and goals
- Software Evaluation: Includes needs analysis, writing prototype, formative evaluation, making changes, pre-testing, implementing, post testing, and impact analysis.
- Hardware Evaluation, Sizing, and Benchmarking: includes professional evaluation required to take your business to the next level in today's Internet centric business and technology climate.
- Network Design, Implementation, Testing, Management, and Benchmarking: enables clients to create technologically advanced solutions that support smooth operations.
- Systems Integration: Meets the needs of your complex information systems through the experience and technological abilities of our consultants.
- Software Testing Services. Ensures and manages quality across the software delivery lifecycle and includes Requirements and Test Management, Functional Testing, Performance Testing, Code Quality, Application Security and Compliance.
- Quality Assurance Services: Includes drafting quality procedures, implementing quality processes, and conducting quality audits.
- IT Professional Services: meets the project based resourcing needs of our clients in the technologies that we practice through our highly skilled and trained professionals.

Q- SAP Services

We have over 12 years of experience in end-to-end SAP ERP implementation projects of varying size and complexity. We provide the people skill sets and the entire range of technological expertise required for a SAP implementation from pre to post implementation.

We navigate through the Solution Manager SAP methodology through each successive phase of an implementation project:

- Project preparation
- Business Blueprint
- Call for action

- Final preparation
- Go Live & Support

CompQsoft's implementation covers the full suite of standard modules including SD, MM, PP, QM, FI and CO, as well as implementation of specific modules such as HR, Payroll, PM, FM and others

Q-SAP Solutions for Small and Mid-Sized Business

- **SAP Business one** – a single application that is designed specifically with small business needs in mind. Business One helps you streamline your business operations, giving your business the technology required to compete in our global economy.

Q – IV&V and Q – Quality Assurance services

- Aimed at achieving and maintaining quality assurance throughout the product lifecycle – from concept to post deployment performance.
